Accu-Tech Embraces Mass Notification as a  
New Distributor for Mercury

April 15, 2021 –Woodbury, NY - Mercury Notifications, a leading B2B life safety solutions provider and product manufacturer of the n.FORM® Mass Notification System, is excited to announce that Accu-Tech has signed on as a national distributor for Mercury’s n.FORM® Mass Notification Emergency Communication systems.

Accu-Tech is a leading distributor of low voltage systems for Security, AV, Wireless and Voice/Data. Their comprehensive line card provides a wide variety of of industries with integrated solutions for the technologies that every business needs.

The addition of the Mercury’s mass notification emergency communication package enables Accu-Tech to further expand its portfolio of products that provide peace-of-mind while protecting life-safety.

Says Jonathan Leonard, President of Mercury Notifications, “We are excited to partner with a leading distributor that truly values the ability of our system to meet key life-safety codes and standards. We look forward to a long and mutually rewarding relationship with Accu-Tech.”

Holly Head, Director of Accu-Tech’s Audio-Visual Division comments, “We are very excited to have Mercury as a part of our roster of technology solutions. We all know that life safety is an important aspect of every business’s plan for risk management. The addition of the n.FORM® System to our other AV and security solutions enables us to explore even more opportunities that promote emergency preparedness.”

In addition to offering a complete, end-to-end mass notification system, Mercury’s n.FORM® meets the NFPA72 and UL2572 design requirements to be called a true mass notification system and provides the hardware and software that supports its distributed audio, distributed recipient mass notification systems, fire panel integration and controls.

To learn more about the new distributor partnership with Accu-Tech, or for a demonstration on Mercury’s n.FORM® Mass Notification System, contact Todd Eddy, Chief Sales Officer for Mercury at
