Mercury Notifications Becomes NSCA Member

July 6, 2021 –Woodbury, NY - Mercury Notifications, the world’s leading B2B life safety solutions provider and product manufacturer of the n.FORM® Mass Notification System, announced today that it has joined the NSCA (National Systems Contractors Association).

NSCA is the leading not-for-profit association representing the commercial electronic systems industry. The National Systems Contractors Association is a powerful advocate of all who work within the low-voltage industry, including systems contractors/integrators, product manufacturers, consultants, sales representatives, architects, specifying engineers and other allied professionals.

“We’re thrilled that Mercury Notifications has shown their support for the integration community by becoming NSCA members,” says NSCA Executive Director Tom LeBlanc. “Our hope is that Mercury Notifications will work side-by-side with NSCA’s integrator members to elevate their offerings and improve the value they can deliver to customers.”

Todd Eddy, Chief Sales Officer for Mercury says, “We are excited to work with the NSCA to offer integrators a new category of solutions that target the entire life-safety ecosystem and that enable push-through and pull-through sales for other life-safety and AV products.”

In addition to the membership at NSCA, Mercury intends to be an active participant in the NSCA’s PASS Program (Partnership Alliance for Safer Schools). Eddy adds, “I’ve had a great deal of experience working with the NSCA and some of their programs. The commitment the NSCA and PASS have to creating awareness and better codes and standards for safety in our schools is commendable, and we will support these efforts in any way we can.”

For more information about the NSCA, visit www.nasca.org. or contact Tom LeBlanc, Media Relations NSCA, at tleblanc@nsca.org or by phone at 617-216-8794.

Mercury Notifications

Specializing in life-safety technologies, Mercury Notifications, and their n.FORM® Mass Notification System is a complete, end-to-end, supervised solution that provides the hardware, software, integration, and controls needed for your mass notification and emergency communication systems.

No matter the situation, Mercury Notifications keeps the line of communication open enabling targeted messages via distributed audio, wide area speakers, phones, email, SMS/Text, Twitter, Skype/Teams, desktop alerts, digital signage and more.

As a UL 2572 and UL 864 rated platform, Mercury integrates with Fire Alarm Control Units and provides

complete emergency and non-emergency communications by zone, by building, by campus, or over a series of buildings anywhere in the world.

In addition, the company offers a complete suite of cloud-based software that enables building-to-building communication, prioritized messaging, and the ability to address, manage and monitor all your facilities from a single access point. Mercury's n.FORM® Mass Notification System is made in the USA and the n.FORM® System is installed in millions of square feet around the globe.
