

A Moment of Clarity Can Mean a World of Difference™

ABOUT US

We are a technology company that understands when it comes to life-safety, compliance is not optional. As such, we manufacture mass notification systems that meet both NFPA72 code and UL2572 standards for mass notification.

OUR MISSION

Make the world safer one clear, concise and consistent message at a time by engineering mass notification emergency communication systems that reach 100% of the people 100% of the time. We do this across multiple platforms with distributed audio, DRMNS (Distributed Recipient Mass Notification Systems) and end to end supervision.

MILESTONES

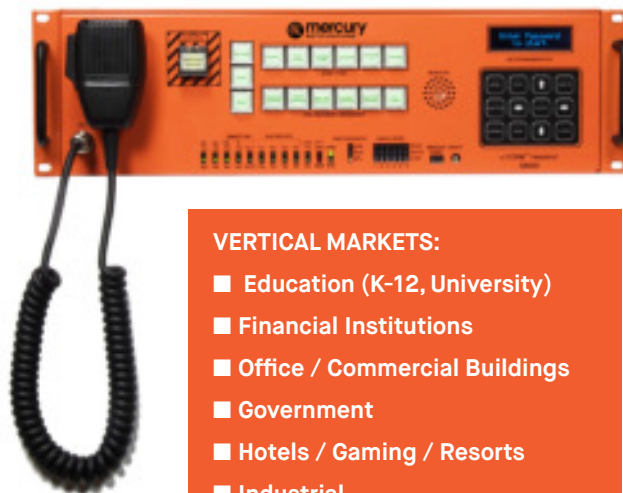

Systems that meet NFPA72 – the National Fire Protection Association's code - for mass notification and UL2572 Standards for mass notification systems.

- Product expertise backed by over 30 years of proven experience in audio distribution and speech intelligibility.
- Complete solution providing both distributed audio and a DRMNS (Distributed Recipient Mass Notification Systems).
- Millions of square feet installed nationally and internationally.
- Unparalleled technical and product support.
- Engineered and Manufactured in the USA.

MASS NOTIFICATION

Having clear direction and the right information in real time:

- Improves emergency response
- Reduces risk
- Minimizes loss
- Saves lives.

VERTICAL MARKETS:

- Education (K-12, University)
- Financial Institutions
- Office / Commercial Buildings
- Government
- Hotels / Gaming / Resorts
- Industrial
- Transportation
- Retail / Entertainment
- Utilities & Critical Infrastructure
