Mercury Notifications Sponsors Rewired for Autism Golf Outing

September 7, 2021 –Woodbury, NY - Mercury Notifications, the world’s leading B2B life safety solutions provider and product manufacturer of the n.FORM® Mass Notification System, is proud to announce its participation and sponsorship of the Rewired for Autism 14th Annual Charity Golf Outing taking place on Monday, September 20th, 2021, at the Rockville Links Club in Rockville Centre, NY.

Mercury’s Director of Business Development, Rob DiMarco, who has been involved with the charity for several years stated: “I’m incredibly proud to report that I have been added to the 2021 Rewired for Autism golf committee. This is a fantastic charity, and one of the top networking events in our industry. In fact, this event typically creates the single largest donation that the NSASA (Nassau/Suffolk Autism Society of America) receives every year, and Mercury is extremely pleased to be included as one of the event sponsors this year.”

Rewired for Autism is dedicated to increasing autism awareness and funding to help the lives of children and families living with autism. Furthermore, the charity brings together like-minded senior professionals within the New York Real Estate, Construction and Design communities. Their collaborated efforts raise funding for scholarships, outings, and events, and they have purchased technology for autistic programs within the Long Island school system.

The event will begin with breakfast. There will be food trucks on the course, blackjack on the 13th hole (same as was done last year), followed by cocktails and dinner to conclude the outing. Staying within safety guidelines and following the club’s requirements due to the COVID-19 pandemic, this year’s outing will be limited to 32 foursomes and only a PM flight. Those wishing to attend should register ASAP as the event sells out quickly.

For more information about Rewired for Autism, for sponsorship opportunities and to register for the 14th Annual Golf Outing, follow this link <https://www.rewiredforautism.org/2021-outing> or contact Michelle at (212) 239-7780. Email info@rewiredforautism.org for additional information.

Mercury Notifications

Specializing in life-safety technologies, Mercury Notifications, and their n.FORM® Mass Notification System is a complete, end-to-end, supervised solution that provides the hardware, software, integration, and controls needed for your mass notification and emergency communication systems.

No matter the situation, Mercury Notifications keeps the line of communication open enabling targeted messages via distributed audio, wide area speakers, phones, email, SMS/Text, Twitter, Skype/Teams, desktop alerts, digital signage and more.

As a UL 2572 and UL 864 rated platform, Mercury integrates with Fire Alarm Control Units and provides

complete emergency and non-emergency communications by zone, by building, by campus, or over a series of buildings anywhere in the world.

In addition, the company offers a complete suite of cloud-based software that enables building-to-building communication, prioritized messaging, and the ability to address, manage and monitor all your facilities from a single access point. Mercury's n.FORM® Mass Notification System is made in the USA and the n.FORM® System is installed in millions of square feet around the globe.
