Expanding the Life-Safety Capabilities of the n.FORM® System,  
Mercury Notifications Introduces the SIP Interface

**September 29, 2021 –Woodbury, NY** - Mercury Notifications, the world’s leading B2B life-safety-solutions provider and product manufacturer of the n.FORM® Mass Notification System, proudly introduces the new SIP Interface.

Mercury Notifications’ latest product, the SIP Interface, is designed to add the option for a complete array of all call and zoned-paging capabilities to the Headend of Mercury Notifications’ n.FORM® Mass Notification system. The new interface will provide full VoIP protocol support, and easy management and provisioning with WebWizard, HTTPS, SNMP and command-line interface. The product’s call capacity can handle up to two simultaneous SIP calls, and has voice signaling, voice processing, and easy connectivity. The SIP Interface also allows for automatic zone routing based on client URI ( Uniform Resource Identifier).

Todd Eddy, Chief Sales Officer for Mercury shares, “We are excited to add yet another feature and capability to our n.FORM® System. This SIP Interface will allow for easy integration to a VOIP telephone system without an analog converter and will further expand our ecosystem of products to offer clients additional options.”

For more information about Mercury Notifications, please contact Todd Eddy at 516-802-0011 or by email at [teddy@mercuryn.com](mailto:teddy@mercuryn.com)

**Mercury Notifications**

Specializing in life-safety technologies, Mercury Notifications, and their n.FORM® Mass Notification System is a complete, end-to-end, supervised solution that provides the hardware, software, integration, and controls needed for your mass notification and emergency communication systems.

No matter the situation, Mercury Notifications keeps the line of communication open enabling targeted messages via distributed audio, wide area speakers, phones, email, SMS/Text, Twitter, Skype/Teams, desktop alerts, digital signage and more.

As a UL 2572 and UL 864 rated platform, Mercury integrates with Fire Alarm Control Units and provides complete emergency and non-emergency communications by zone, by building, by campus, or over a series of buildings anywhere in the world.

In addition, the company offers a complete suite of cloud-based software that enables building-to-building communication, prioritized messaging, and the ability to address, manage and monitor all your facilities from a single access point. Mercury’s n.FORM® Mass Notification System is made in the USA and the n.FORM® System is installed in millions of square feet around the globe.
