Wise Components, Inc. Embraces Mass Notification  
as a New Distributor for Mercury

September 21, 2021 – Woodbury, NY – Mercury Notifications, a leading B2B life safety solutions provider and product manufacturer of the n.FORM® Mass Notification System, is excited to announce that Wise Components, Inc. has signed on as a national distributor for Mercury’s n.FORM® Mass Notification Emergency Communication systems.

Wise Components, Inc. is New York metropolitan area’s leading stocking distributor for original equipment manufacturer (OEM) parts, contractor’s structured cabling systems and communications maintenance, repair and operating (MRO) supplies. They provide premier electronic components, low-voltage cabling, connectivity products, safety gear, tools and test equipment used to build today’s data communication, voice, and security networks.

The addition of the Mercury’s mass notification emergency communication package enables Wise Components to further expand its portfolio of products that provide peace-of-mind while protecting life-safety.

Says Todd Eddy, Chief Sales Officer for Mercury, “We are incredibly excited to partner with Wise Components, Inc. as a new value-added distributor for Mercury Notifications technologies. They have been an established service-oriented supplier of industrial electronics since the 1950s. With their strong track record on providing exceptional customer service and their strong commitment to building personal relationships with their customers, we felt it was a great fit to work together. Mercury has a focus on finding partners that share a willingness to grow with us and an understanding of high-quality brand's needs and the internal resources to support and scale accordingly. We felt that Wise was a perfect example of the dedicated, professional partner to distribute Mercury Notifications technologies, and we are thrilled to have them on board.”

In addition to offering a complete, end-to-end mass notification system, Mercury's n.FORM® meets the NFPA72 code and UL2572 standard design requirements to be called a true mass notification system and provides the hardware and software that supports its distributed audio, distributed recipient mass notification systems, fire panel integration and controls.

To learn more about the new distributor partnership with WISE, or for a demonstration on Mercury's n.FORM® Mass Notification System, contact Todd Eddy at [teddy@mercuryn.com](mailto:teddy@mercuryn.com) or visit [www.mercurynotifications.com](http://www.mercurynotifications.com).

### **About Mercury Notifications**

Mercury Notifications and their n.FORM™ Mass Notification System meets the UL2572 Standard for Mass Notification and the design requirements for the National Fire Protection Association (NFPA) Code 72: Fire Alarm and Signaling. The company offers both distributed audio systems and distributed recipient mass notification systems (DRMNS) to ensure messages reach 100% of the intended audience, 100% of the time. Proudly manufactured in the USA since 2013, Mercury Notifications' n.FORM® system comes with an unparalleled 10-year conditional warranty.
