Mercury Notifications to Exhibit at NSYCATE,  
The New York State Association for Computers and Technology

**October 29, 2021 –Woodbury, NY** - Mercury Notifications, the world’s leading B2B life safety solutions provider and product manufacturer of the n.FORM® Mass Notification System, has announced it will be an exhibitor at the New York State Association for Computers and Technology (NYSCATE) conference this November.

The NYSCATE annual state-wide conference, being held Sunday, November 21<sup>st</sup> and Monday, November 22<sup>nd</sup> and Tuesday, November 26<sup>th</sup>, will be attended by more than 1500 attendees and 150+ exhibitors showcasing exemplary education applications of technology. The event brings together the brightest technology minds in education and will be an excellent opportunity for key manufacturers to meet with members that are interested in integrating supportive technologies that can make the learning environment a safer space while improving real time communications.

The conference provides a showcase for the latest products and services designed for the educational setting, and as one of the largest technology-exhibitor floors in New York State, it offers major-networking opportunities with other exhibitors and educational decision makers from across New York State.

Mercury’s Chief of Sales, Todd Eddy stated: “We are excited to participate in the 2021 NYSCATE conference this year, in person! This event offers us a chance for us to connect with many key decision-makers and personnel throughout the State of New York and show how Mercury Notifications solutions can help protect people, properties, and brands. “

Attendees interested in life-safety technologies for emergency communication are encouraged to stop by the Mercury booth for a quick demonstration to see how mass notification can help keep the NY Education Community safe.

For more information about Mercury Notifications and to find out the booth location at NYSCATE, please contact Jodi Jacobs at 516-802-0011 x401 or by email at [jjacobs@mercuryn.com](mailto:jjacobs@mercuryn.com)

**About Mercury Notifications**

Specializing in life-safety technologies, Mercury Notifications, and their n.FORM® Mass Notification System is a complete, end-to-end, supervised solution that provides the hardware, software, integration, and controls needed for your mass notification and emergency communication systems.

No matter the situation, Mercury Notifications keeps the line of communication open enabling targeted messages via distributed audio, wide area speakers, phones, email, SMS/Text, Twitter, Skype/Teams, desktop alerts, digital signage and more.

As a UL 2572 and UL 864 rated platform, Mercury integrates with Fire Alarm Control Units and provides complete emergency and non-emergency communications by zone, by building, by campus, or over a series of buildings anywhere in the world.

In addition, the company offers a complete suite of cloud-based software that enables building-to-building communication, prioritized messaging, and the ability to address, manage and monitor all your facilities from a single access point. Mercury's n.FORM® Mass Notification System is made in the USA and the n.FORM® System is installed in millions of square feet around the globe.

### **About NYSCATE**

The New York State Association for Computers and Technologies in Education is an educational, not-for-profit organization which seeks to promote the effective use of technologies for quality education.

NYSCATE fosters collaborative efforts to integrate technologies in instruction across the curriculum and disseminates information designed to assist educators in enhancing the management and effectiveness of the learning environment. NYSCATE has drawn strength and support from its talented and diverse membership since 1965. With a current membership of over 20,000 members, all regions of the state are represented by teachers, administrators, technology coordinators and directors, school board members, parents, consultants, and business people. Membership is open to all who share a common interest in NYSCATE's stated goals. For more information, visit [www.nyscate.org](http://www.nyscate.org).
